Southern Oregon Success Blueprint for Change

PRESCHOOL & K ALIGNMENT

Future State:

There is alignment on a shared definition and metrics for 'readiness' and a supportive and meaningful transition for children and families between ECE and Kindergarten.

Solution:

Two summits each year to bring together early childhood educators with K-2 teachers and administrators to align educational offerings and develop effective transitions from preschool to Kindergarten.

FAMILY CAPACITY FOR RESILIENCE

Future State:

Family stability is prioritized in education, health care, human services, public safety, workforce development and our region's businesses.

Solution:

The Rogue Valley Family Advisory Council to bring family voice into education, health care, human services, public safety, workforce development and our business community.

EARLY CHILDHOOD SUPPORTS

Future State:

Comparable high-quality and affordable early childhood education is available to all students in each community in appropriate languages. Strong partnerships between ECE programs and families build social emotional competencies across home and school settings.

Solution:

Develop multiple parent/caregiver support groups and build a protocol to have all health care providers and others refer parents and caregivers to support groups as a common practice.

GOAL

By 2025, all parents and caregivers in Jackson and Josephine counties will have the knowledge, skills, connections and support needed for all of their children to enter Kindergarten ready to thrive.

HUMAN-CENTERED EQUITABLE SERVICES

Future State:

Families can access and move easily into and through services and systems in health care, human services, education, and the workplace where they feel respected, provide and receive feedback, and trust the services provided through innovative approaches.

Solution:

Expand School Based Health Centers to all schools in the region and include navigation to community resources as part of the SBHC model.

Jefferson Regional
Health Alliance

All in for Health Community Health Improvement Plan

1. Behavioral Health
(Including Mental Health and
Substance Use)
2. Housing
3. Parenting Support & Life Skills

CHA KEY THEMES

Substance Use
